

KET MARINE

SEPARATORS SINCE 1985

SEPARATING THE BEST FROM THE REST!

Company Profile

Excellent quality & service since 1985

KET Marine specializes entirely in supplying spare parts and repair services for Westfalia and Alfa Laval separators.

Since the founding of the company, KET Marine has strived to achieve an honorable track record when it comes to providing our customers with outstanding quality and reliable service solutions.

Our stock program consists of approximately 20.000 different spare parts, brought to you by a staff of dedicated people that are determined to provide you with everything you need to keep your separators up and running!

Activities

Supplying high quality spares from stock!

Over the past few decades, KET Marine has developed an extensive range of OEM and genuine quality spare parts that are suitable for Westfalia and Alfa Laval separators.

The scope of the program varies from mechanical components, hydraulics, pumps, gaskets, control units and tools, through an extensive range of applicable components and gaskets for heat exchangers from various manufacturers.

Bowls

Extensive bowl program

At the heart of the machine a driving centrifugal force is working to provide your engines with pure and clean lube or fuel oil.

To ensure your separators will always stay up and running, we offer an extensive range of exchange bowls for Westfalia and Alfa Laval which are balanced, tested and ready for dispatch at any time!

The range of bowls varies from OTA, OTB, OSA, OSB, OSC, OSD, OSE and OSF type bowls, through MAB, P- and S- type bowls.

Separators

Complete reconditioning

In order to provide you with a professional and reliable solution, all reconditioned separators are overhauled completely according to the original manufacturer standards.

After the reconditioning process, all separators will endure an extensive test run with liquids, rebalancing of the bowl and the approval of our highly skilled and dedicated marine engineers.

Heat Exchangers

Full Service & Spares

Besides the program we offer for Westfalia and Alfa Laval separators, KET Marine can also provide you with complete servicing and spare part solutions for your heat exchanger modules.

KET Marine offers a broad scope of spares and gaskets applicable for SWEP, GEA EcoFlex, Tranter and APV heat exchanger modules from stock!

Service

Wherever & whenever you need us most

We honestly believe that time is of the essence when it comes to the berthing of your ship. That is why KET Marine is driven to provide it's excellent repair and delivery service 24/7, the whole year round.

KET Marine is conveniently located in between the great ports of Antwerp and Rotterdam so our marine engineers can just as easily assist you on board, as well as they can offer direct

services from our well-equipped work shop!

*Any time, any place, KET
Marine will be at your service!*
